

Membership Overview

The *Nevada Highway Users Coalition* is a statewide group of concerned citizens, business owners and labor organizations. Our focus is to advocate that Congress and our State Legislature address our growing transportation needs. Since the spring of 2007, we have been educating the public about Nevada's looming transportation funding crisis and the long term consequences of failing to address our state's critical needs. Nevada's road and highway infrastructure funding is insufficient to meet our current needs, much less those of the future.

Why is investing in Nevada's roads and highways so important now?

- Immediate and ongoing creation of jobs
- Improved flow of commerce
- Significant cost savings on inevitable construction projects
- A better quality of life for our residents and visitors
- Safer roads for our families

We are dedicated to encouraging elected leaders to develop a compelling and comprehensive vision to move people and goods efficiently throughout Nevada and to identifying the resources to make it a reality.

You can help by becoming a member. As a member of the *Nevada Highway Users Coalition*, you will:
